in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 3901 Tchoupitoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them."—Miss ESTELLA MAGUIRE, 119 Thwing St., St. Clair, Pa.

There is nothing that touches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

YACHTS SUSPECTED OF ATTACKING OIL SHIPS

Washington, Oct. 14.—British agents are investigating operations of certain yachts which they suspect have been outfitted for use against ships carrying oil from Mexico to the British navy. Information has been gathered from Norfolk, Pensacola and from the Gulf of California.

Recent reports to British sources of the attack on a British tanker bound from Tampam, in the Mexican oil fields, strengthen the belief of the agents that the attacking ship was manned by Germans and carried one gun. The agents also have reported that they have information that a small ship manned by Germans and outfitted with such a variety of supplies as would be used by a warship, left Pensacola, Fla., Oct. 4. They have not established her identity. Three other small ships recently disappeared from the Gulf of California.

Charges that certain officers of the two interned auxiliary German cruisers at Norfolk were connected with the outfitting of the ship which left Pensacola also are being investigated. Another phase of the investigation

GLASS OF SALTS CLEANS KIDNEYS

If your Back Hurts or Bladder
bothers you, drink lots
of water.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Fry this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

by British agents concerns allegations that bases for naval stores for such ships have been established in the West Indies—one somewhere on the coast of Haiti. The plan is said by the investigators to contemplate sending the small ships from American ports and outfitting them at the bases.

FARMERS OBJECT TO RAIDS OF NUT HUNTERS

Bartlesville, Okla., Oct. 14.—With hundreds of bushels of pecans in this section, pecan hunters are finding poor "pickings" because most of the farms where the nuts are to be found are "boarded." Farmers on whose lands pecans are to be found, argue that the crop is as much of a revenue to them as fruit, and, too, pecans bring in quite a bit of "pin money" at this season of the year.

Unless pecan hunters take warning, they will be liable to arrest, for farmers have sent out what they say is the last warning. They have appealed to the sheriff of two counties for assistance. A score of John Doe warrants have been issued in this county and fully that many have been issued in Osage county, where the crop is said to be even larger than here. Farmers say they are tired of patrolling their pecan orchards and hint there will be something doing unless pecan hunters quit trespassing.

LEAGUE FOR MARRYING OF MAIMED HEROES FORMED

London, Oct. 14.—The Rev. Ernest Houghton, a Bristol rector, has started an appeal to patriotic women of the nation to give their loves to ameliorate the condition of maimed heroes of the war by marrying them. He has launched a "League for the marrying of broken heroes."

The rector contends that the example of France shows that unions thus arranged, promise a greater percentage of happiness than is customary from the methods in England, because they are based upon a high degree of unselfishness. Strict secrecy is promised as to the identity of women prepared to immolate themselves after the plan of the league until the arrangements for their marriage are complete.

NEGRO EDUCATORS AROUSED IN REGARD TO MORRILL FUND

Oklahoma City, Oct. 14.—An interesting development in the situation with reference to the federal fund for agricultural education in Oklahoma is likely to follow the announcement by Frank M. Gault, president of the state board of agriculture, that he will seek to stop the payment of any part of the Morrill fund for agricultural education to the Colored Agricultural and Norman school at Langston. This is seen in the activity among negroes, who are understood to be forming an organization to demand admittance of negro youth to the Agricultural and Mechanical College at Stillwater in case federal aid be withdrawn from their school at Langston.

The Langston Agricultural and Normal school has been receiving \$5,000 a year from the Morrill fund, contributed by the federal government. This sum has been turned over to the state board of education annually for several years to be used in the negro school. Mr. Gault announced the other day that he will seek to recover this money and to stop further payments, claiming that the entire \$50,000 a year ought to be paid to the support of the Stillwater Agricultural and Mechanical school.

McAlester Case Closed.

Oklahoma City, Oct. 14.—The \$50,000 libel suit for Col. J. J. McAlester against Frank M. Gault, president of the state board of agriculture; Don Lawhead, secretary, and A. D. Humbarger, became history Thursday morning when attorneys for the plaintiff obtained permission from District Judge George W. Clark to withdraw their motion for a new trial. This made it certain that the jury's verdict exonerating Gault and Lawhead

Colonel McAlester filed suit for \$50,000 as the result of a political advertisement published in The Oklahoman during the primary campaign in 1914 when both he and Gault were candidates for the democratic nomination for president of the board of agriculture. When the case was tried before a jury in the district court a few weeks ago, judgment for the defendants was returned, except in the case of Humbarger who was ordered to pay Colonel McAlester \$100 damages.

COUNTIES MAY BUY RAILROAD BRIDGE

McAlester, Okla., Oct. 14.—Pittsburg and McIntosh counties are negotiating for the purchase of the Missouri, Kansas & Texas railroad bridge across the Canadian river, to be converted into a wagon bridge. The railroad is building a new bridge which will be ready for use in thirty days. To buy the old bridge, elevate it above high water and remodel it for vehicles, it is estimated, would cost \$50,000. A definite proposal was received from the railroad officials Wednesday and immediately a mass meeting was called for Friday morning to consider means of raising the money. McIntosh county is willing to pay half the cost. The bridge, if purchased, will form the connecting link in the proposed Katy highway across Oklahoma, and will be the only wagon bridge over the Canadian river between Fort Smith and Oklahoma City.

METHODISTS MEET IN TULSA —WILL ENDORSE UNION

Tulsa, Okla., Oct. 14.—The Oklahoma conference of the Methodist Episcopal church, in annual session in Tulsa, will go on record in favor of the union of all branches of Methodism, but may not propose any definite plan of bringing this to pass. The election of delegates to the general conference, which meets in Sara-

toga, N. Y., next year, is of all-absorbing interest to the conference, which may elect five ministerial and as many lay delegates. The number of delegates to which this conference is entitled is yet to be determined, but it will not be less than four each, ministerial and lay.

The conference greeted with enthusiasm announcement that the contest over the gift by the city of Guthrie of a site and building to the Methodist college there had been decided in favor of the university by the state supreme court and the conference will launch a movement at once to complete the raising of a fund of \$250,000 to meet a condition of the gift imposed upon the church. The conference will launch a movement for an endowment for retired ministers, with \$25,000 as the amount wanted.

A conference daily newspaper is being published, edited by the Rev. H. W. Lewis, pastor of Tabernacle M. E. church, Dallas, Texas. Over 700 delegates to the conference have registered.
